

# A Knight's Welcome To:

## Dr. Katie A. Siek

**DATE:** Tuesday October 23, 2018

**TIME:** 11:00AM-12:00PM

**LOCATION:** Harris Engineering Center 356

**HOSTED BY:** The Department of Computer Science, Disability, Aging, and Technology Cluster, and Faculty Cluster Initiative

I am an associate professor in Informatics, the Director of Informatics Undergraduate Studies, and the ProHealth Director of Graduate Studies at Indiana University – Bloomington. I am interested in integrating pervasive technologies in health and wellness environments to study how technology affects interventions. My research interests include human computer interaction, ubiquitous computing, and health informatics. Prior to returning to IU, I led the Wellness Innovation and Interaction Lab. (Formal Bio).

### Current and Recent Activities

- Co-PI with Amanda Lazar (U. of Maryland) on a National Science Foundation funded Toolkits for Aging in Place for Older Retirees (TAIPOR)
- CHI 2019 Health Subcommittee Co-Chair with Sean Munson, U. Washington
- Co-chaired with Tiffany Veinot (U. of Michigan) a CCC CRA funded workshop on Sociotechnical Interventions for Health Disparity Reduction: A Research Agenda
- Principal Investigator of the National Science Foundation supported Research Experience for Undergraduates ProHealth Site
- Informatics Researcher for the IU Grand Challenges Precision Health Initiative
- Co-organizer for the Consumer Health Informatics in the Midwest Meeting
- I organized IU SICE's First School-Wide Fall and Spring Semesters Projects and Research Symposium and the New SICE PhD Outreach Visit for prospective Ph.D. students.

### Education

- Ph.D., Computer Science, Indiana University, 2006
- M.S., Computer Science, Indiana University, 2004
- B.S., Computer Science, Eckerd College, 2000
