

HARRIS Corporation

We are currently screening in Information Technology department for potential level 1 engineers in the specific field of Network Engineering. Some area which students should be interested in and have some experience are:

- 1) Router configuration (Cisco, Juniper, Nortel)
- 2) Routing Protocols (BGP, OSPF, MPLS)
- 3) Network Architecture for LAN's and WAN's
- 4) Optical Networks
- 5) Telecom systems
- 6) TCP/IP protocol structure
- 7) Network Security
- 8) Software programming

Harris offers some excellent salaries for new grads and great benefits for further education, health care and 401K.

Students who are former military or have held a DoD clearance are great candidates also but it is not required. If any of the students are interested please forward a resume to:
